

1. How do I get access to the Sequoia Interoperability Testing Platform (ITP)?
 - a. Your organization needs to request user account(s) for all staff and or your vendor who will be conducting testing on your behalf. Complete the PDF or online survey found here: <https://ehealthexchange.org/testing-program/content-testing/>
 - b. If you need to request additional user accounts after the initial survey has been completed, please email the name, email and phone number for each additional user you want to have provisioned to the email testing@sequoiaproject.org.
2. I have lost my password for the Sequoia ITP, how do I reset it?
 - a. Additional information can be found in the Content Testing Tooling User Guide found [here](#) as slides #10 and #11.
3. How do I access the Content Testing Tooling component for the ITP?
 - a. Please bookmark this site <https://gazellecontent.sequoiaproject.org/EVSCClient/home.seam>
4. How do I gain access to the eHealth Exchange Wiki where the content testing documentation can be found?
 - a. Navigate to <https://ehealthexchange.org>
 - b. You will see this screen, click on the (Participant Login) in the upper right corner – see screenshot below:

- c. Click the Register link as shown in screenshot below:

- d. Provide the information requested – your account will be activated immediately. Login to the wiki with your newly activated account. Make sure to navigate to the **Testing wiki**.

- e. Click on the Documentation for Content Testing Program Link as shown in the screenshot below to see the slides, testing and user guides:

C-CDA Content Testing Scope/Documentation (Approved/Effective January 11, 2017)

Testing Tooling access and official program launched February 5, 2018

This page provides the documentation package for use with the enhanced content testing program for the eHealth Exchange and includes the content test procedures and associated test data. The testing documentation provides guidance from Health Level 7 (HL7) publications and shall be used for conformance testing requirements and procedures beginning February 5, 2018. **Please provide comments or questions to testing@sequoiaproject.org**

- [Content Testing Tools User Guide 2018 Version 1.0](#)

FOR VENDORS ONLY: Receive Test Case XML Files

- CCD/C32:** [MU_HITSP_C32C83_4Sections_RobustEntries_NoErrors.xml](#)
- HL7 C-CDA R1.1:** [170.315_b5_ccds_amb_ccd_r11_sample2_v1.xml](#)
- HL7 C-CDA R2.1:** [170.315_b5_ccds_amb_ccd_r21_sample1_v1.xml](#)

[Zip Package](#) of all the above files for the 2018-02-05 Content Testing Program

- 5. How do I submit my results once testing is completed?
 - a. Send the permanent link provided by the tooling to the email testing@sequoiaproject.org. Information regarding what is meant by the permanent link can be found as slide #16 within the Content Testing Tooling User Guide found [here](#).
- 6. The Content Testing Tooling was updated on July 31, 2019, what do I need to do to rescore my testing previously submitted?
 - a. Please navigate to the permanent link previously submitted and select the “Validate again” button as shown below:

File Name: 01 CCD-Sample.xml

OID: 1.3.6.1.4.1.12559.11.28.17980

Schematron: N/A (Version 20190731)

Schematron Validation: N/A

Validation Date: 8/9/19 3:36:17 AM (CEST GMT+0200)

Model Based Validator: HL7 - C-CDA R2.1 - Meaningful Use Stage 3 (Version 20190731)

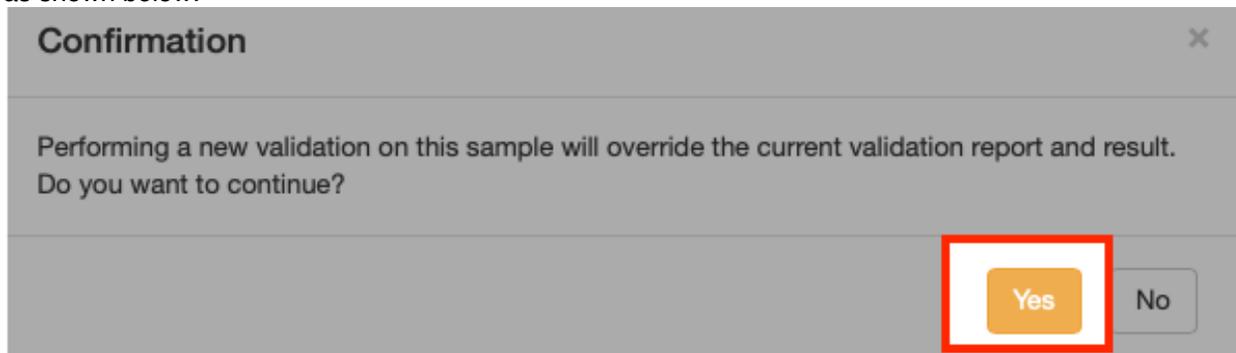

Model Based Validation: **FAILED**

Permanent link: <https://gazellecontent.sequoiaproject.org/EVSCClient/detailedResult.seam?type=CDA&oid=1.3.6.1.4.1.12559.11.28.17980>

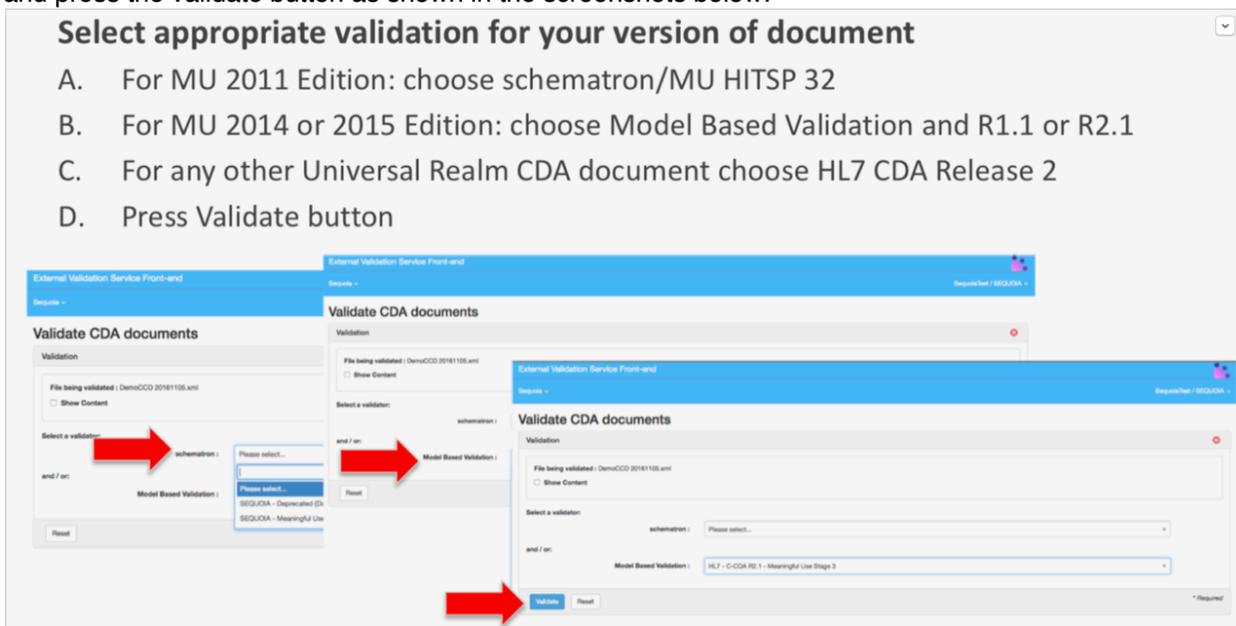

Data Visibility: Private - Owned By didi / SEQUOIA

Buttons: Make this result public, share this result, **Validate again**, Perform another validation

- b. You will be prompted to confirm that you wish to overwrite your previous report while maintaining the same permanent link for ease of tracking. Click the “Yes” button to continue as shown below:

- c. You will be required to select the appropriate validation for your version of document again and press the validate button as shown in the screenshots below:

- d. This will overwrite your previous report while maintaining the same permanent link for easy of tracking purposes. It is recommended that you revalidate all reports previously submitted to ensure you have the correct errors identified for remediation.
7. We have completed our revalidation with the tooling update, do we need to officially resubmit our results, or does Sequoia watch for the results via the tool?
 - a. You do not need to resubmit results unless they now pass according to the tooling revalidation. If the testing report now passes, please resend the permanent link information to the testing@sequoiaproject.org email so we can update our records showing your passing result. We do not watch the tooling results as they are updated for pass/fail status.
 8. How will I know which participants have successfully passed testing?
 - a. Each organization that has successfully passed will have their organizational updated on this page <https://ehealthexchange.org/participants/> and the  logo will be added showing passing content.
 9. How long will we have to remediate issues found in the content testing program?

- a. Each organization will have 18 months from the initial testing report date to remediate any defects with their vendor or staff.
- 10.** Has there been an extension to the February 5, 2019 date for participants?
 - a. Yes, an email was sent to all eHealth Exchange participants on Friday, February 1, 2019 informing about a 90-day extension that the Coordinating Committee approved. The extension allows for an extension for content testing submissions May 6, 2019.
 - b. If your organization will not be able to meet the 5/6/19 deadline a corrective action plan will need to be submitted to the email testing@sequoiaproject.org.
- 11.** What is meant by a corrective action plan?
 - a. The corrective action plan should include the reason your organization cannot meet the requirement and when the testing will be completed.
- 12.** Can I use PHI in the content testing submitted?
 - a. No, please use ONLY test data in the document samples tested as the tooling is not hosted in a HIPAA compliant environment.
- 13.** How do I report defects found within the tooling?
 - a. Email one question/issue/defect per email to techsupport@sequoiaproject.org
 - b. Provide as much information as possible including:
 - i. Screenshots
 - ii. Testing Permanent Link with Issue
 - iii. Reference details for specification questions/issues
- 14.** Where can we find the value sets or codes used by the content testing tooling?
 - a. You can find all the value sets available here: <https://vsac.nlm.nih.gov/>. This site does require a UMLS license/account.
- 15.** What is required to be remediated? Are only Errors required? What about warnings?
 - a. Only Errors MUST be fixed. Warnings are provided for your information and are typically SHOULD statements in the base specifications and associated companion guides. Your organization can choose whether to fix warnings.
