

ANNUAL MEETING 2023 PROGRAM GUIDE

eHealth Exchange™

TUESDAY, NOVEMBER 14TH AGENDA

ALL DAY **Ask the Expert Booth**
Stop by anytime to meet with eHealth Exchange staff to get answers to your network questions.
Mike McCune *Coordinating Expert*
Jay Johnstone *Expert*
John McBride *Expert*

8:00 AM Networking Breakfast

9:00 AM **Welcome and Opening Remarks**
eHealth Exchange Coordinating Committee Chair will open the annual meeting with the Coordinating Committee's perspective of the network, including progress highlights and the path ahead.
Dr. Matthew Eisenberg *Coordinating Committee Chair, Stanford Health Care*

9:30 AM **State of the Network**
eHealth Exchange Executive Director shares the annual state of the network, including accomplishments of 2023 and roadmap for 2024.
Jay Nakashima *Executive Director*

10:00 AM **Keynote Address: Innovation: Buzz Word or Action Word?**
Hear from the first Chief Technology Officer of the United States ('09-'12) and the fourth Virginia Secretary of Technology ('06-'09) and author of this 2014 book, "Innovative State: How New Technologies can Transform Government" as he shares his thoughts on innovation in health IT.
Aneesh Chopra *CareJourney & Author*

10:30 AM Networking Break

10:45 AM **Trickle Down TEFCA**
Regional and State HIEs are preparing now to participate in the anticipated eHealth Exchange TEFCAs. As TEFCAs go-live spreads from QHINs to Participants (like HIEs) to Subparticipants (like health systems), what are the challenges, hopes, and expectations for these traditional users of health information exchange?
Lisa Bari *Moderator, Civitas Networks for Health*
Phil Beckett *C3HIE*
Erica Galvez *Manifest MedEx*
Craig Behm *CRISP Shared Services*
Melissa Kotrys *Contexture*

11:30 AM **FHIR for Public Health**
In 2023, more than a dozen network participants launched the FDA adverse events pilot on FHIR. Hear how new connections and use cases are going live in record time with the right mix of organizational priorities and technical simplicity.
Dr. Hussein Ezzeldin *Featured Speaker, FDA*
Dr. Ray Duncan *Cedars-Sinai Health System*
Todd Turner *Veteran Affairs*

12:00 PM Networking Lunch *Sponsored by Clareto*

1:00 PM **TEFCA Time**
A presentation on TEFCAs implementation, including timelines, responsibilities and expectations for the future.
Jay Nakashima *Executive Director*
Steve Gravely *The Gravely Group*

What Public Health Wants

Panelists from federal and state public health agencies share their needs in health information exchange and how network participants can support this critical national infrastructure priority.
1:45 PM
Debbie Condrey *Moderator, The Sequoia Project*
Chris Baumgartner *Washington State Department of Health*
Dan Pollock *Clifton Corridor Consulting*
Alexandra Woodward *ASTHO*
Rick Hawes *CDC OPHDST*

2:30 PM Networking Break

2:45 PM **Payer and Provider Burden Reduction using FHIR (and preparing for TEFCAs)**
CMS regulations require FHIR APIs for Patient Access, and will soon require FHIR for Prior Authorizations, as well as Payer-to-Payer and Payer-to-Provider exchanges. Panelists representing payers, providers and health information exchanges (HIEs) will describe their specific market needs and solutions which leverage FHIR to gain workflow efficiencies (and how this all fits into their respective 2024 roadmaps).
Bill Howard *Moderator, eHealth Exchange, Board Chairman*
Dave DeGandi *Cambia Health Solutions*
Kirk Anderson *Cambia Health Solutions*
Erica Galvez *Manifest MedEx*
Dr. Jeffrey Anderson *Veterans Health Administration*
Jim Adamson *Arkansas BCBS*

Information Handling Best Practices

The health information exchange landscape is continuing to evolve and expand at an increasingly rapid rate. Yet, those outside of this niche generally have poor insight into the what, when, why, and with whom of health information exchange. And let's face it: This stuff is pretty complicated. We differ in so many ways, but for individuals to understand how we handle their health information, we need to tell them. Learn some best practices for how to communicate the way your organization handles information.
3:30 PM
Pat Russell *eHealth Exchange*
Cait Riccobono *CRISP Shared Services*

4:00 PM **Keynote Address: Insights from ONC National Coordinator for Health Information Exchange**
Dr. Micky Tripathi will share the progress made with TEFCAs and their vision as the first candidate QHINs move towards designation and go-live along with his views on early participation.
Dr. Micky Tripathi *ONC*

4:45 PM **Insights from the Top**
eHealth Exchange Board of Directors Chairman Bill Howard will sum up the day's insights and call to action for participants to enhance their connectivity to improve patient care and outcomes.
Bill Howard *eHealth Exchange, Board Chairman*

5:30 PM Evening Network Reception *Sponsored by InterSystems*

When you're working with disparate data, you're only seeing part of the picture

InterSystems brings patient data together to give you a complete, real-time view so you can uncover critical insights and make smarter decisions

PLATINUM SPONSOR

InterSystems technology is the power behind the country's largest Health Information Exchanges, including eHealth Exchange. Our Innovative healthcare solutions help our customers find answers to healthcare challenges with a focus on improving quality of care. From streamlined access and sharing of healthcare data to connecting disparate patient data sources to create a holistic view of the patient, we solve some of the world's most complex healthcare data challenges. We have a forty-five-year track record of helping organizations worldwide do more with their data. InterSystems proudly says we now power the United States' largest healthcare data exchange.

GOLD SPONSOR

Clareto, a Munich Re company, operates the largest interoperability network purpose-built for risk assessment via authorization-based disclosures. With connections to EHRs, HIEs, and other sources covering >70% of the population, Clareto enables frictionless access to digital health data to transform underwriting, claims, and other workflows for the life insurance industry. Together with Munich Re Life US, Clareto is developing new digital underwriting solutions to drive quicker decisions, greater policyholder satisfaction, and new business growth.
