TEFCA Monthly eHealth Exchange Technical Webinar

Eric Heflin, Consultant

eHealth Exchange™

Agenda

- Monthly TEFCA Technical Webinars
- TEFCA Overview – Reference
- Initial Participants Lessons Learned
 - Exchange Purposes
 - USCDI
- Authorization Framework v4 TEFCA Considerations
- Open Discussion / Q&A
- For More Information (Including Office Hours)

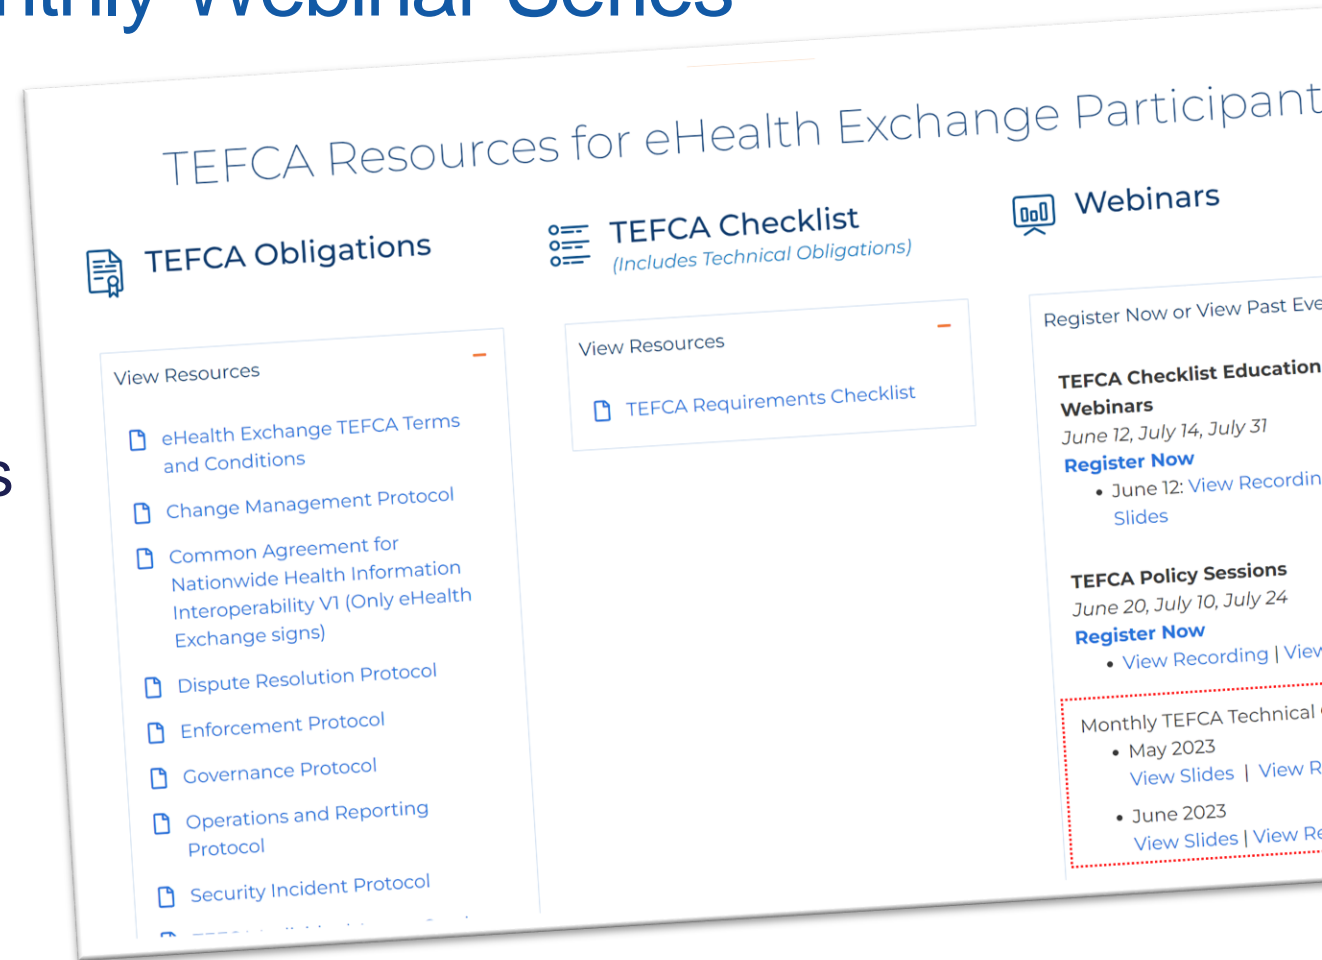

Monthly TEFCA Technical Webinars

eHealth Exchange TEFCA Monthly Webinar Series

- Today's webinar is part of a series
- Prior webinars covered:
- TEFCA Readiness Checklist
- Individual Access Services Providers
- Reporting Requirements
- Error Handling
- And more

Prior webinars can be found at:

<https://ehealthexchange.org/what-we-do/tefca-and-ehealth-exchange/>

ONC/HHS/RCE Announcement

« NEWS

eHealth Exchange Among First To Achieve TEFCASM Qualified Health Information NetworkTM (QHINTM) Designation

Today, **eHealth Exchange** announced it's been designated as a Qualified Health Information NetworkTM (QHINTM) under the Trusted Exchange Framework and Common AgreementSM (TEFCASM). This places eHealth Exchange's electronic data-sharing network among the country's first Designated QHINs to go live and operationally ready for exchange with other Designated QHINs.

Trusted Exchange Framework and Common Agreement (TEFCA)

U.S. Department of Health and Human Services
Enhancing the health and well-being of all Americans

Enter the terms you wish to search for.

ONC released [Version 2.0 of the Common Agreement](#) published in November 2023, and includes enhanced capabilities for FHIR-based transactions. The Common Agreement sets forth the requirements each Participant and Trusted Exchange Framework (TEF) must incorporate all applicable standard operating procedures.

The Trusted Exchange Framework and Common Agreement (TEFCA) is designed to: (1) to enable nationwide interoperability; (2) to simplify connectivity for providers and patients; and (3) to generate health care value for populations, and generate health care value;

TEFCA Components

Common Agreement

The [Common Agreement](#) is the agreement that the Trusted Exchange Framework and Common Agreement (TEFCA) is designed to: (1) to enable nationwide interoperability; (2) to simplify connectivity for providers and patients; and (3) to generate health care value for populations, and generate health care value;

Trusted Exchange Framework

The [Trusted Exchange Framework](#) is a common set of rules that enable widespread information exchange. These rules ensure that information is shared in a way that protects privacy, security, and safety; access; equity; and...

e

eHealth Exchange is a Designated QHIN under TEFCA

eHealth Exchange is among the country's first Qualified Health Information Networks (QHINs) to achieve designation status under ONC's Trusted Exchange Framework and Common Agreement, also known as TEFCA.

We're ready to help HIEs, health systems, digital health platforms, and others who want to connect to the federally-endorsed TEFCA network.

[TEFCA RESOURCES](#) 

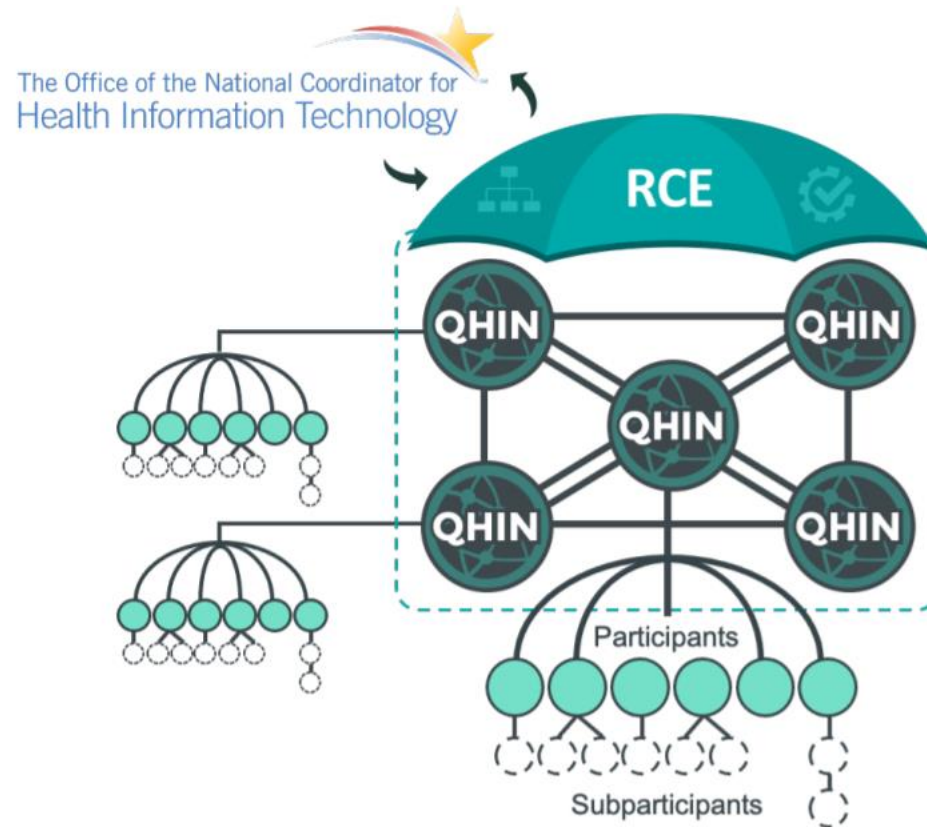

[FAQS](#) 

[CONTACT US](#) 

TEFCA Overview - Reference

How Does TEFCA Work?

- ← ONC defines overall policy and certain governance requirements.
- ← RCE provides oversight and governing approach for QHINs.
- ← Qualified Health Information Networks (QHINs) connect directly to each other to facilitate nationwide interoperability.
- ← Each QHIN connects Participants, which connect Subparticipants.

What is the Trusted Exchange Framework (TEFCA)?

It's a federally endorsed governance framework for **cross-network** exchange of healthcare records.

Similar to Carequality, it's a framework, and not a network:

- Technical & policy agreements
- Governing structure
- Federated architecture

Enables healthcare organizations connected to a TEFCA Qualified Health Information Network (QHIN) to exchange patient data with other healthcare organizations connected to other QHINs.

eHealth Exchange™

Leveraging the power of the federal government to expand & mature interoperability

Intent to Exchange from 11 HIEs Operating in 15 States Serving up to 126 Million Patients

What's changed?

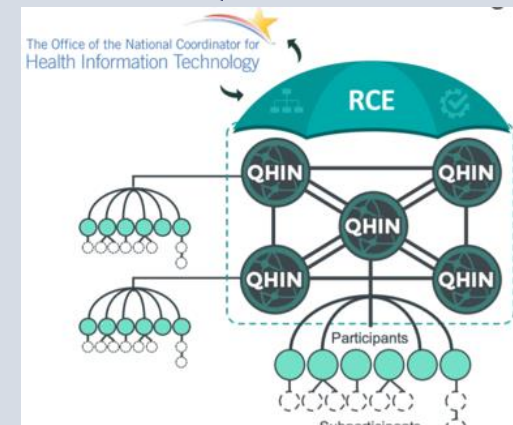

Before: eHealth Exchange Connected with TEFCA

Your organization can exchange with the eHealth Exchange's 320+ health systems, federal agencies, providers and provider collaboratives.

After: eHealth Exchange Went Live on TEFCA

Option for your organization to **also** exchange with healthcare organizations participating in TEFCA QHINs.

How is the eHealth Exchange different?

eHealth Exchange

- ✓ National non-profit focused on the Public Good
- ✓ Single technical connection instead of hundreds
- ✓ Vendor agnostic
- ✓ 24x7x365 monitoring
- ✓ Enforced content quality assurance
- ✓ Analytics dashboard
- ✓ Broad federal agency connectivity
- ✓ Trust (no patient tracking, no selling data)

Other Networks

- ⚠ Multiple technical connections
- ⚠ Vendor specific
- ⚠ Limited to no 24x7x365 monitoring
- 🛑 No mandatory content testing
- ⚠ No or limited analytics portal dashboard
- 🛑 No broad federal agency connectivity

Initial Participants Lessons Learned

Tips for Success

Tip – Project US@

- A few informal tips based on some experiences and dialog with eHealth Exchange Participants joining the TEFCA via the eHealth Exchange QHIN Hub
- Note the requirements for Project US@ (pronounced “Project U.S. Address”)
- Requires transacted XCPD content to adhere to Project the US@ requirements
- Note that a prior Monthly TEFCA Technical Meeting was devoted to this topic and had an extensive analysis of the mandatory and some optional requirements of Project US@ from the perspective of an eHealth Exchange Participant or Sub-Participant

Tip – US CDI 1.0 Compliance

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2023/12/QTF-V1.1-Final-508.pdf>
- Section 1.1
The scope of data for TEFCA exchange is TEFCA Information as defined by the Common Agreement and maintained by QHINs, Participants or Subparticipants. The United States Core Data for Interoperability (USCDI) is a named data standard in the QTF but it is neither a “floor” nor a “ceiling” for data exchange in TEFCA. TEFCA Information maintained by QHINs, Participants and sub participants could be more or less than the data in the version of USCDI specified in the QTF. There is no minimum requirement for QHINs, Participants or Subparticipants to maintain all the data elements in the version of USCDI specified in the QTF. However, the USCDI provides conformance requirements when exchanged in TEFCA. When TEFCA exchange occurs for the data in the USCDI version specified in the QTF, then the data need to conform to the requirements specified in the USCDI. This could be done by the Participants or Subparticipants or by the Responding QHIN depending on the internal configuration and policies of each QHIN.

Tip – US CDI 1.0 Compliance

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2023/12/QTF-V1.1-Final-508.pdf>

QTF-052 All C-CDA 2.1 format documents adhering to the Continuity of Care Document template MUST include all appropriate data classes and elements from the United States Core Data for Interoperability (USCDI) V1 when data are available.²³ The RCE will update the QTF to enable the use of future versions of USCDI that are consistent with ONC rules for health IT certification compliance.

QTF-053 Responding QHINs MAY provide patient information in other document formats if required by Applicable Law or if an alternative format is requested by the Initiating QHIN via the IHE XDSDocumentEntryFormatCode XCA parameter.

Tip – US CDI 1.0 Compliance

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2023/12/QTF-V1.1-Final-508.pdf>

QTF-100 All C-CDA 2.1 format documents adhering to the Continuity of Care Document template MUST include all appropriate data classes and elements from **USCDI** V1²⁷ when data are available. The RCE will update the QTF to enable the use of future versions of USCDI that are consistent with ONC rules for health IT certification compliance.

Tip – US CDI 1.0 Compliance

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2023/04/PaymentRiskAdjustment-DraftSOP.pdf>
- The RCE cites both USCDI v2 and v3 as having mandatory and optional data classes, in a DRAFT SOP for Payment

⁸ <https://www.healthit.gov/isa/sites/isa/files/2021-07/USCDI-Version-2-July-2021-Final.pdf>

⁹ <https://www.healthit.gov/isa/sites/isa/files/2022-07/USCDI-Version-3-July-2022-Final.pdf>

Tip – US CDI 1.0 Compliance

6.2 QHIN Query Response

- a) All QHINs, Participants, and Subparticipants SHOULD Respond to Requests for Risk Adjustment that contain the information specified in 6.1 of this document, in accordance with the Common Agreement and Applicable Law.
- b) If a Health Care Provider Responds to a Request for Risk Adjustment, then it MUST Respond with all Required Information that is maintained by the Health Care Provider, including but not limited to:
 - i. The following data classes identified in the USCDI v2⁸
 1. Allergies and Intolerances
 2. Assessment and Plan of Treatment
 3. Clinical Notes
 4. Clinical Tests
 5. Diagnostic Imaging Results
 6. Encounter Information
 7. Health Concerns
 8. Laboratory
 9. Medications
 10. Patient Demographics/Information
 11. Problems
 12. Procedures
 13. Provenance
 14. Smoking Status
 15. Vital Signs
 - ii. The Health Care Provider’s Legal Authenticator
 - iii. The Health Status/Assessments data class, as identified in USCDI v3⁹. Notwithstanding the foregoing, Disability Status MAY be shared.⁹

Tip – US CDI And Project US@ For Patient Matching

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2022/12/TEFCA-Facilitated-FHIR-Implementation-Guide-Draft-2-Pilot-Version.pdf>
- Section 3.2 Patient Matching:

FHIR Query Initiators SHOULD normalize all patient demographic data elements according to USCDI standards before attempting to query. The lone exception to this rule is for address, which MUST conform to the Project US@ Technical Specification². Queries for information MUST include all demographic parameters that are available and can be sent and are not constrained by applicable law. Demographics SHOULD follow, at a minimum, USCDI v1 defined demographics.³ Responding Actors SHALL NOT require more than all USCDI v1 demographics plus administrative gender before returning a patient list response.

Updated Authorization Framework V4

On the June CC Agenda

New Version of Authorization Framework (v4)

- If the eHealth Exchange Coordinating Committee Approves it as being proposed...
- Entirely optional
- Designed for those needing compatibility with the contemporary IHE standards
- Developed publicly by the eHealth Exchange Technical Work Group

Authorization Framework v4 TEFCA Approach

- TEFCA implications
- Known Authorization Framework scope TEFCA issues called-out
- Note: The RCE moved the Exchange Purposes into an SOP with the same name
- Exchange Purpose is now a defined term (XP)
- <https://rce.sequoiaproject.org/wp-content/uploads/2022/06/SOP-Exchange-Purposes.pdf>

TEFCA **Authorized** Exchange Purposes (XPs) (for Participants)

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2022/06/SOP-Exchange-Purposes.pdf>
- Section 3:
 1. **Authorized Exchange Purposes** – The Exchange Purposes under the Common Agreement and this SOP are:
 - Treatment
 - Payment
 - Health Care Operations
 - Public Health
 - Government Benefits Determination
 - Individual Access Services

TEFCA **Mandatory** Exchanges (for Participants)

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2022/06/SOP-Exchange-Purposes.pdf>
- Section 3.3
 - b. Participants and Subparticipants are required to Respond to Requests transmitted via QHIN-to-QHIN exchange in accordance with the section of the Framework Agreement that flows down Section 9.4 of the Common Agreement for each of the following Exchange Purposes, except to the extent that one or more of the exceptions applies that are set forth in the section of the Framework Agreement that flows down Section 9.4.1 of the Common Agreement:
 - i. Treatment – Required as of the publication date of this SOP.
 - ii. Individual Access Services – Required six (6) months following the publication date of the Individual Access Services Exchange Purpose Implementation SOP.

TEFCA Exceptions to XP

- Referencing: <https://rce.sequoiaproject.org/wp-content/uploads/2022/06/SOP-Exchange-Purposes.pdf>
- Section 9.4.1 (partial summary)
 - Public health authority
 - Utilizes government benefits determination
 - Individual access and if there is a specified exception
 - Is not required information
 - Federal agencies have certain exceptions in some cases
 - Is not authorized

Authorization Framework v4 TEFCA Notable Considerations

- Notable TEFCA consideration in AFv4: Organizations will need to implement TEFCA PurposeOfUse (called Exchange Purposes or XP)

eHealth Exchange Actively Used PurposeOfUse Values

NHIN PurposeOfUse vocabulary *	Code *	In Use **
Treatment	TREATMENT	Yes
Payment	PAYMENT	Yes
Healthcare Operations	OPERATIONS	Yes
Use and disclosures for disaster relief purposes.	DISASTER	Yes
Uses and disclosures for public health activities	PUBLICHEALTH	Yes
Disclosures for insurance or disability coverage determination	COVERAGE	Yes
Request of the Individual	REQUEST	Yes

TEFCA Exchange Purpose Values

- The eHealth Exchange Hub does not automatically map or translate between TEFCA Exchange Purposes codes and eHealth Exchange PurposeOfUse codes
- Reason: We reviewed and felt each TEFCA Participant using the eHealth Exchange QHIN node should self-access compliance with the new TEFCA codes
- The next slide presents a technical mapping only that could perhaps be a starting point for each eHealth Exchange Participant or Sub-Participant that will be exchanging on the Trusted Exchange (TEFCA).

TEFCA Exchange Purpose Values

NHIN PurposeOfUse vocabulary *	Code *	In Use **	TEFCA Code	Mapping Considerations
Treatment	TREATMENT	Yes	Treatment - T-TRTMNT	
Payment	PAYMENT	Yes	Payment - T-PYMNT	
Healthcare Operations	OPERATIONS	Yes	Health Care Operations - T-HCO	
Use and disclosures for disaster relief purposes.	DISASTER	Yes		
Uses and disclosures for public health activities	PUBLICHEALTH	Yes	Public Health- T-PH	
Disclosures for insurance or disability coverage determination	COVERAGE	Yes	Government Benefits Determination- T-GOVDTRM	Are both participants limited to the scope of government disability determination?
Request of the Individual	REQUEST	Yes	Individual Access Services - T-IAS	Do both participants meet the requirements of the TEFCA individual access services (such as CSP, IASP, etc.)?

TEFCA Exchange Purposes Compliance

- Each Participant should review the exact definitions of the Exchange Purposes and confirm or establish compliance.
- Compliance with the TEFCA Exchange Purposes is the responsibility of each initiator and responder under TEFCA.

TEFCA Exchange Purposes Operational Requirements

- Directories
 - The TEFCA directory entries must be populated with the Exchange Purposes that are used by TEFCA Participants and Sub-Participants under the eHealth Exchange TEFCA QHIN Hub gateway
- Transactions
 - The eHealth Exchange Hub enforces transactions
 - Transactions inconsistent with the QHIN Directory Exchange Purposes are returned to the initiator with a SOAP Fault

eCR Public Health Reporting Via The eHealth Exchange QHIN Hub

eCR Public Health Reporting Via The eHealth Exchange QHIN Hub

- APHL AIMS has officially opted-in to exchange under TEFCA with the eHealth Exchange as its QHIN
- The goal to begin exchanging for eCR under TEFCA is **July 1, 2024**
- The eHealth Exchange, APHL AIMS and a vendor are all working together to meet the stated deadline for eCR exchange
- Testing is underway with AIMS and the eHealth Exchange with informal reportability response testing with a vendor

ONC Releases Common Agreement Version 2.0, Paving the Way for TEFCA Exchange via FHIR

... the Office of the National Coordinator for Health

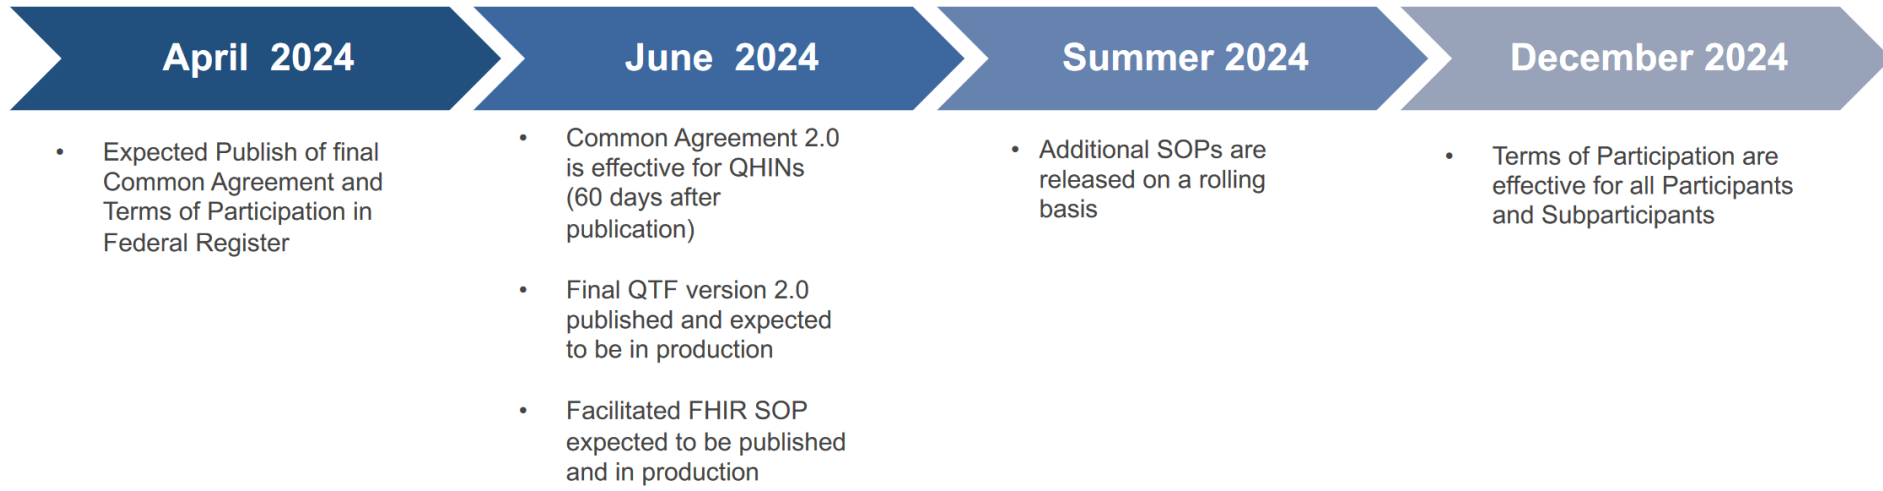

Common Agreement v 2.0

- Covered in detail in the May 2024 eHealth Exchange Monthly TEFCA Technical webinar
- Will be coming into effect as a phased deployment
- Please see the prior webinar for more detailed information about this new, in effect, agreement

Transition from Version 1.1 to Version 2.0

- TEFCA is currently live on Common Agreement Version 1.1 for QHINs
- Applicable Flow-Down provisions are applied to Participants and Subparticipants
- There is a transition period to allow for adoption of the new Framework Agreements by those who are already live
 - 60 days for the Common Agreement
 - 180 days for the Terms of Participation
- During the transition, all TEFCA connected entities can engage in TEFCA Exchange for approved Exchange Purposes
- QHINs are responsible for adding new TEFCA connected entities to the RCE Directory as they sign the Terms of Participation

- Interactive walkthrough of full checklist

eHealth Exchange
Readiness Checklist for Connectivity to the Trusted Exchange Framework (TEFCA) via eHealth Exchange (Version 1.0)

Overview: While the eHealth Exchange Hub will address many of the new TEFCA requirements on its Participants' behalf, the requirements below represent Trusted Exchange Framework (TEFCA) requirements for eHealth Exchange Participants. The requirements below may replace, change, or supplement the requirements for eHealth Exchange Participants to connect to the Trusted Exchange Framework via eHealth Exchange requirements, but also all of the supplemental TEFCA requirements below. The requirements below may replace, change, or supplement the requirements for eHealth Exchange Participants to connect to the Trusted Exchange Framework via eHealth Exchange requirements, but also all of the supplemental TEFCA requirements below. The requirements below may replace, change, or supplement the requirements for eHealth Exchange Participants to connect to the Trusted Exchange Framework via eHealth Exchange requirements, but also all of the supplemental TEFCA requirements below. The requirements below may replace, change, or supplement the requirements for eHealth Exchange Participants to connect to the Trusted Exchange Framework via eHealth Exchange requirements, but also all of the supplemental TEFCA requirements below. The requirements below may replace, change, or supplement the requirements for eHealth Exchange Participants to connect to the Trusted Exchange Framework via eHealth Exchange requirements, but also all of the supplemental TEFCA requirements below.

This is a living document: As the Recognized Coordinating Entity (RCE) and Office of the National Coordinator (ONC) publish and revise artifacts at <https://rce.sequoiaproject.org/tefca-and-rce-resources>, this document will be updated accordingly. Subsequently discuss with you your plans to connect to the Trusted Exchange Framework.

Audience: Potential eHealth Exchange QHIN Participants seeking to understand the eHealth Exchange QHIN's Participant TEFCA requirements. The reader should have a basic knowledge of eHealth Exchange, QHIN, and their Sub-Participants.

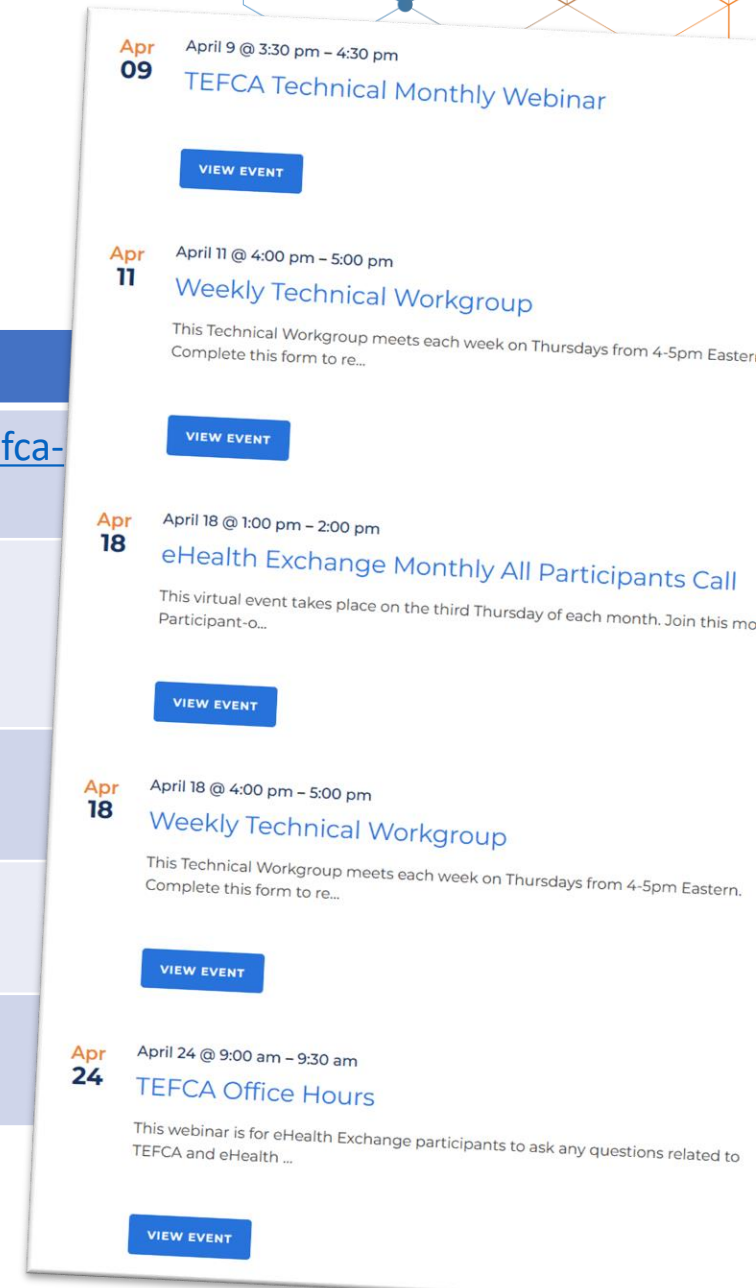

General Operational Concept: The eHealth Exchange QHIN Hub acts as a bi-directional TEF gateway for eHealth Exchange Participants that don't opt-out of eHealth Exchange TEFCA exchange. The eHealth Exchange QHIN Hub facilitates the flow of information and data between eHealth Exchange Participants and their Sub-Participants.

Terms used (Also see the References section far below):
 TEF = Trusted Exchange Framework, the structure consisting of QHIN-to-QHIN health data exchanges, established by the TEFCA legal agreement, SOPs, and technical specifications.
 QHIN = Qualified Health Information Network.
 eHealth Exchange QHIN Hub = A unique instance of the eHealth Exchange Hub technology facilitating TEFCA transactions.

Performance & Service Specification Requirements	Additional Considerations *	Citations/Links
		https://www.healthit.gov

How might I obtain additional information?

How	When	Where
1. Visit eHealth Exchange Web Site	Any time	https://ehealthexchange.org/what-we-do/tefca-and-ehealth-exchange
2. Monthly Participant Web Meetings	Typically, the 3rd Thursday of Each Month at 1 pm ET	https://ehealthexchange.org/events
3. Monthly TEFCA Technical Call	See web site	https://ehealthexchange.org/events
4. Email	Any time if you have a specific question	administrator@ehealthexchange.org
5. Monthly TEFCA Office Hours (Q&A)	See web site	https://ehealthexchange.org/events

Major Technical Differences eHealth Exchange QHIN Participants Must Support

- Adopt USDCI v1 data classes and elements
- Adhere to Project US@ patient addressing
- Adopt IHE ITI Technical Framework Revisions 17.0 (versus Revision 8.0)
- Accept aggregated XCPD responses
- New PurposeOfUse values
- Various requirements such different consent attribute structure, sub-participant directory entries and detailed reporting, onboarding log submissions, specific test patients, and quarterly reporting.

Next Steps

1. Review the published policy documents (not discussed today)
2. Review the TEFCA Readiness Checklist
3. Let the eHealth Exchange staff know of your organization's intentions (if you haven't already)

email: administrator@ehealthexchange.org
