

# The eHealth Exchange Application Process

## STEP 1 SUBMIT AN APPLICATION PACKAGE

Complete your Health Exchange Application Package and send to [administrator@ehealthexchange.org](mailto:administrator@ehealthexchange.org).

### The application package includes:

- ✓ eHealth Exchange Application
- ✓ Restatement II of the DURSA
- ✓ Participation Agreement
- ✓ eHealth Exchange Participant Testing Services Agreement

## STEP 2 CONDUCT REQUIRED TESTING

Each organization will be required to complete a testing path that will include transport testing and content testing. The level of testing can vary depending on the technology that you use.

## STEP 3 COMPLETE ACTIVATION PROCESS

Once required testing is completed, organizations will work in an activation status to finalize connectivity for production. This includes receiving production certificates, being added to the production directories, and completing production testing with the eHealth Exchange Hub.

## STEP 4 GO LIVE

After steps 1-3 are completed, your organization can begin to exchange live data with other eHealth Exchange Participants.

**Questions?** Contact [administrator@ehealthexchange.org](mailto:administrator@ehealthexchange.org).
